

February 2021

Congratulations and welcome to The Claremont Colleges (TCC) and your Student Health Services!

Attached is your **Entrance Personal Health History/Medical Examination Report Form**.

This form provides your history of previous medical care from your private health care provider and is the basis for your continuing medical care in college. Completion in full regardless of your status (i.e. part-time, exchange, or transfer student) is required for registration at any of The Claremont Colleges.

Please complete pages one, two and three yourself. Pages four and five are to be completed by your private health care provider. Please note that **required** immunizations and screening include:

- Hepatitis B (HBV) - 3 dose series
- Measles, Mumps, and Rubella (MMR) - two dose series
- Meningococcal Conjugate (MCV4) and booster dose at or after age 16
- Primary series of Tetanus, Diphtheria, Pertussis and Tdap booster within the last 10 years
- Tuberculosis screening questionnaire (TB skin test, CXR, or Quantiferon blood test to be performed, if indicated)
- Varicella Zoster (VZV) - 2 dose series or date of disease

Immunization records are required to prevent outbreaks of disease on campus as well as to help recognize students who are at risk should a disease outbreak occur. If you cannot locate your immunization records, you have two options:

- You can be re-immunized.
- You can have a blood test to determine immunity. If the blood test indicates that you are not immune to HBV, MMR, or VZV you will have to be re-immunized.

Once your form has been completed, mail it directly to Student Health Services at 757 College Way, Claremont, CA 91711, fax it to (909) 621-8472 or **upload your forms directly.**

Link to upload forms can be found at **<https://bit.ly/2WfxT3m>**.

All students are required to carry major medical insurance to provide supplemental coverage in the event of an acute injury or illness requiring hospitalization. A Student Health Insurance Plan (SHIP) is available to students attending TCC. Proof of insurance is required at all undergrad colleges and for all grad and undergrad International Students. The Claremont Colleges Insurance plan is required for all International Students. Please contact your Dean of Students' Office for brochures and plan information.

The staff at Student Health Services looks forward to assisting you with your health care needs while you are at The Claremont Colleges. Our website, **[www.services.claremont.edu/student-health-services](http://www.services.claremont.edu/student-health-services)** has more information about our services.

Thank you for your cooperation. Your compliance helps protect the health of the entire campus community.

## STUDENT HEALTH SERVICES

This information is to inform you about meningococcal disease, a potentially fatal bacterial infection commonly referred to as meningitis, and the current recommendations from the Centers for Disease Control and Prevention (CDC) along with the recommendations of the Advisory Committee on Immunization Practices (ACIP).

Meningitis is rare. However, when it strikes, its flu-like symptoms make diagnosis difficult. If not treated early, meningitis can lead to swelling of the fluid surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, limb amputation, and even death. The disease strikes about 4000 Americans each year and claims about 500 lives. Between 100 and 125 meningitis cases occur on college campuses nationwide and as many as 15 students will die from the disease.

The Claremont Colleges, in an effort to keep the campus safe and as healthy as possible, now require all incoming freshmen to show proof of meningococcal vaccination. The vaccine is available at Student Health Services any day by appointment. For more information, please feel free to contact our health service and/or consult your health care provider. You can also find information about this disease on our web site, [www.services.claremont.edu/shs/](http://www.services.claremont.edu/shs/), which links to the website for the Centers for Disease Control and Prevention (CDC), <http://www.cdc.gov/> and the American College Health Association website, <http://www.acha.org/meningitis>.

Please note that the required Meningococcal Tetravalent (Men ACWY) vaccination is different from the recommended Meningococcal B vaccination. All students need to have had a Meningococcal Tetravalent vaccination, with a booster dose given at age 16 or older. Meningococcal B vaccinations are strongly recommended for all students, but are not required at this time.

**PART III: MEDICAL INSURANCE**

It is required that all students be covered by medical insurance to provide supplemental coverage for medical costs in the event of a severe illness, injury, or accident. **The Claremont Colleges Services Student Health Services does not do any medical insurance billing.** However, information about a student's medical coverage can expedite the process of community subspecialty referrals if necessary as well as an insurance identification card carried by the student.

Students of The Claremont Colleges are automatically enrolled into SHIP (Student Health Insurance Plan). Students wishing to waive SHIP coverage must submit proof of coverage prior to registration via the online waiver portal. Please note that this form is only for Student Health Service's use and does NOT waive you from SHIP. If you are not waiving SHIP coverage, please check the box below. Policy information will become available after the start of Spring semester.

Please provide current medical insurance information below:

**A. TUBERCULOSIS SCREENING (Required)**

- Does the student have a history of a positive tuberculin skin test (PPD) in the past?  Yes  No  
If no, proceed to #2.  
If yes, include date of positive PPD, mm induration, date and results of most recent chest x-ray and documentation of any treatment received for latent tuberculosis. **Skin test should not be repeated.** Proceed to #2.
- Does the student have signs or symptoms of active tuberculosis disease?  Yes  No  
If no, proceed to #3.  
If yes, proceed with additional evaluation to exclude active tuberculosis disease including tuberculin skin testing, chest x-ray and sputum evaluation as indicated.
- Is the student a member of a high-risk group?  Yes  No

*Categories of high-risk students include those students who were born in or resided in countries where TB is endemic. It is easier to identify countries of low rather than high TB prevalence. Therefore students should undergo TB screening if they were born in or resided in countries EXCEPT those on the following list: Canada, Jamaica, Saint Kitts and Nevis, Saint Lucia, USA, Virgin Islands (USA), Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, San Marino, Sweden, Switzerland, United Kingdom, American Samoa, Australia, or New Zealand. Other categories of high-risk students include those with HIV infection, who inject drugs, who have resided in, or worked in high-risk congregate settings such as prisons, nursing homes, hospitals, residential facilities for patients with AIDS, or homeless shelters; and those who have clinical conditions such as diabetes, chronic renal failure, leukemias or lymphomas, low body weight, gastrectomy and jejunoileal by-pass, chronic malabsorption syndromes, prolonged corticosteroid therapy (e.g. prednisone ≥ 1 month) or other immunosuppressive disorders.*

If you have answered no to questions 1-3, please stop.

If yes, place tuberculin skin test [Mantoux only: Inject 0.1 ml of purified protein derivative (PPD) tuberculin containing 5 tuberculin units (TU) intradermally into the volar (inner) surface of the forearm]. A history of BCG vaccination should not preclude testing of a member of a high-risk group.
