## Enhanced registration

When you register for the first time on the myCigna website or app, you'll be required to provide a primary email address. Having an email address helps Cigna better protect the information in your myCigna account. We can send automatic alerts when you update your email or password. Your email address also can be used when you need help recovering your myCigna user ID or password.

## Two-step authentication

With two-step authentication, you have the option of adding an extra layer of security to your myCigna account to further protect your claim, health and account information.

1. First, you'll be encouraged **to add, update and verify contact information - email addresses and mobile phone numbers.**
2. Once you enable two-step authentication and log in to your myCigna account, you'll be asked **to enter your user ID and password, as well as a six digit code that will be sent to either your email address or mobile phone number.** You'll also be offered to select "Remember this Device." If this choice is selected, you won't be prompted for a code each time you log in to your myCigna account from that device.
