The Claremont Colleges 2020 California Education Code 67380 Report

A Message from Campus Safety Assistant Vice President Stan Skipworth:

California Education Code section 67380 requires the compilation of statistics for crimes that are committed on campus that involve violence, hate violence, theft, destruction of property, illegal drugs, or alcohol intoxication as well as incidents of non-criminal hate violence. The data in this report includes crime statistics that are published in each of the seven Claremont Colleges' 2019 Annual Security Report as well as additional categories of crimes. The Annual Security report is produced in compliance with The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, a federal law that requires higher education institutions to maintain and disclose campus crime statistics and security information. The Claremont Colleges are comprised of Claremont Graduate University, Claremont McKenna College, Harvey Mudd College, Keck Graduate Institute, Pitzer College, Pomona College and Scripps College.

Availability, location and methods for summoning assistance of security personnel

Availability and location:

The Campus Safety Department of The Claremont Colleges Services, serving The Claremont Colleges, is located at 150 East Eighth Street and provides safety services 24 hours a day, 7 days a week and 365 days per year to our community. Our Campus Safety Dispatch Center can be reached directly 24 hours a day by phone at (909) 607-2000.

The Campus Safety Department is a non-sworn safety department that provides a safe and secure learning and working environment for the campuses communities of all seven Claremont Colleges. The Campus Safety Department enforces policies, procedures, and the parking regulations outlined by each of the colleges. The Campus Safety Officers of The Claremont Colleges Services have private citizen's powers to arrest. Penal Code Section 837 specifies the conditions under which officers, as a private person, may make an arrest.

Methods for Summoning Assistance:

1. Call or visit the location at:

Campus Safety
Department
150 East Eighth Street
Claremont, CA 91711
(909) 607-2000

Campus Safety has an excellent working relationship with local law enforcement agencies. The Claremont Police Department has primary jurisdiction for the enforcement of state, federal, and local laws. Both agencies help provide proactive safety patrols of The Claremont Colleges community and surrounding area. Additionally, the Campus Safety Department of The Claremont Colleges and the Claremont Police Department have entered into a "Memorandum of Understanding" (MOU) to establish

guidelines and clarify jurisdictional and administrative responsibilities dealing with Part I and Clery reportable crimes, as well as operational working relationships. The Campus Safety Department of the Claremont Colleges also maintains a “Memorandum of Understanding” (MOU) with the Upland Police Department.

2. Download the LiveSafe Mobile App

The Campus Safety Department recommends all members of each campus community, and their family and friends, download the free LiveSafe mobile app because it allows users to initiate contact with Campus Safety for emergencies and/or to report suspicious behaviors or activity. With the push of a button, you can instantly contact Campus Safety or 911 in an emergency, and you will receive an immediate text response within the application. When you send an emergency message or call the emergency number, your location will automatically pop up on a map in the Campus Safety Dispatch/Communications Center. A virtual escort function in the app allows you to alert your friends that you are on the way to a destination, so they can monitor your progress and help keep you safe.

3. Find a Blue Light Emergency Phone

Blue light emergency phones are located throughout the seven campuses. The phones are connected to the Campus Safety Department’s 24-hour communications center and identifies the location of a phone used to place a call should the caller be unable to talk. The phones can be used to request an escort, report emergencies, and to report suspicious activity and or crimes.

4. Call the Claremont Police Department (CPD)

You can contact the CPD by calling 911 in an emergency, or (909) 399-5411 for non-emergencies.

5. For Security Considerations in Facilities Maintenance

Central Facilities Services (CFS) and the Facilities Management offices of each of the campuses regularly monitor campus facilities for necessary safety and security-related repairs, and partners very closely with the Campus Safety Department to help create a safer campus community. To request service for an electrical, plumbing, or other maintenance-related problem, call Campus Safety at extension 7-2000 or (909) 607-2000.

Security of and access to campus facilities are key-accessed and most are open daily for scheduled campus community use. Student housing facilities incorporate key

access points and rooms. Campus key control and distribution is a function of each campus' Facilities Services department.

Security Technology

As part of the Department of Campus Safety's efforts to leverage technology and suppress criminal activity, Campus Safety utilizes a security camera network in and around the campuses.

Established Safeguards

These methods for summoning assistance have been developed by the Campus Safety Department to help protect and inform the campus communities of each of the seven campuses. In addition to those outlined above, each of the seven Claremont Colleges provides the following safeguards and information:

6. Informing the Campus Community of Crimes and Threats

Everbridge Alert System: If you are a student or employee of The Claremont Colleges, it is essential to familiarize yourself with your campus' emergency notification system, Everbridge. The Campus Safety Department will communicate with you through Everbridge in the event of an emergency or a dangerous situation and will provide updates and other information allowing you to make informed decisions about your personal safety. For complete information on how to sign up for Everbridge, please see your specific institution's website. Brief information is listed below:

CGU: All faculty, staff and students are automatically enrolled in Everbridge.

CMC: Students are automatically enrolled through CMCs student information system. Faculty and staff are automatically enrolled through Human Resources.

HMC: All campus telephone numbers, and email addresses are connected to the Mudd Alert System. To receive a Mudd Alert message on a cell phone, community members must enroll by using the [Mudd Alert Registration Form](#).

KGI: Students are automatically enrolled in Everbridge through KGI's Information Technology department. Staff and faculty are registered during their onboarding process through the Human Resources Department.

Pitzer: Student information is updated through the Student Information System (SIS) by the Registrar's Office. Faculty and staff are asked to provide updated information to Human Resources or update their information in Ultipro, which in turn also automatically feeds daily into Everbridge.

Pomona: Students, faculty, and staff with a campus phone extension and college email

are already in the Everbridge database. To add a cell phone number, and/or home number, log on to the campus portal at my.pomona.edu and click on the Everbridge link.

Scripps: Students are automatically loaded into the Everbridge system through the Student Information System (SIS). Faculty and staff are opt-in and can be added to Everbridge by contacting the [Emergency Preparedness Department](#).

Crime Alerts: The Campus Safety Department issues four distinct messages depending on the nature of the incident. All messaging is generated through the Everbridge emergency notification system.

- 1) **Emergency Notification** procedures are enacted upon the confirmation of a significant emergency or dangerous situation (including a Clery reportable crime), involving an immediate threat to the health or safety of students or employees occurring on The Claremont Colleges.
- 2) **Timely Warning Notification** will be issued in the event The Claremont Colleges receives notice of an alleged Clery Act reportable crime occurring on campus, on public property within or immediately adjacent to one of the campuses of The Claremont Colleges, or in or on noncampus buildings or property controlled by any of The Claremont Colleges, where Campus Safety or the Colleges determine, in its judgment, that the allegations present a serious or continuing threat to the Claremont Colleges community.
- 3) **Alert Bulletin** will be issued upon the confirmation of an incident where Campus Safety or the Colleges determine, in its judgment, does not present an immediate or continuing threat to the Claremont Colleges community, but requires alerting the Claremont Colleges community due to its possible effect on the community's movement or activities.
- 4) **Community Message** is general, informational messages issued by Campus Safety as a public service. These messages provide general safety guidelines or community information for the overall college community.

In the event of a major emergency, updates and information about the status will be posted online at your institution's emergency website, and on the [Campus Safety Emergency Website](#) in addition to updates via Everbridge.

Notifications: The Office of Communications at your specific institution, The Office of Communications for The Claremont Colleges Services with Campus Safety, jointly publish bulletins on the campus' homepages to provide news about emergency or safety-related situations (e.g., fires, hit-and-run accidents, hoaxes) that may or may not present an immediate danger to the college community.

The Daily Crime Log and Fire Safety Log: Campus Safety maintains a Daily Crime Log of all crime reported to the Department that took place at The Claremont Colleges. The log includes criminal incidents reported to Campus Safety during the last 60 days and is

available on the Campus Safety website at <https://services.claremont.edu/campus-safety/clery-reporting/>. Any member of The Claremont Colleges and members of the public may also view the Clery Daily Crime Log at Campus Safety during normal business hours at 150 E. 8th Street Claremont, CA 91711. This log identifies the type, location, date, time and disposition of each criminal incident reported to Campus Safety. Any portion of the log that is older than 60 days will be made available within two business days from date requested for public inspection.

The Fire Log is maintained by each institution and is available in the Facilities department or Student Affairs office. The Fire Log includes the nature, date, time and general location of every fire that occurs in an on-campus housing facility. The log is available for inspection by contacting the Facilities Office, Monday through Friday during normal business hours.

- 7. Safety Escort Program and Efforts:** Safety Escorts are available for all members of The Claremont Colleges. Safety Escorts are provided by uniformed Campus Safety Officers, who will respond to the location of person requesting the escort and accompany the student, staff or faculty member by foot or vehicle to the desired destination. Please note that due to COVID safety protocols, any escorts provided by vehicles will have passenger occupancy limits.

Safety Escorts can be made by calling Campus Safety's 24-hour Dispatch Center at 909-607-2000 or x72000 from any on-campus landline telephone. Requests can also be made by using the LiveSafe app, available for iOS and Android devices. For more information, please visit <https://services.claremont.edu/campus-safety/safety-escort-information/>

Safety Tips for using third-party Ride Share Apps

- **TRAVEL IN PAIRS:** Travel with a friend – the “safety in numbers” concept really works, especially if your judgment is impaired.
- **VERIFY YOUR DRIVER AND CAR:** Once you have requested a Uber/Lyft ride, you can view the driver's rating. When your ride arrives, make sure the driver's photo, license plate number, and vehicle description match. Never take a ride you did not request or get into a car that doesn't match the details provided by the Uber/Lyft app.
- **GO THE EXTRA MILE:** The Uber/Lyft app's “share your ETA” function allows you to invite friends to see your trip in real-time. The app will draft a text message you can share with friends that includes your ETA and a link to a live map that allows them to track your trip. Too much effort? Call a friend and stay on the line while you're in the car instead.

What to Do in the Event of an Active Assailant or Active Shooter

We promote the “Run, Hide or Fight.” Response. Resources can be found here <https://services.claremont.edu/campus-safety/>.

Residential Access

The Claremont Colleges campus-owned residence halls, dorms and apartment complexes use a mixture of physical keys and an electronic, card-key-access system that limits entry to residents and other users permitted by the college. Campus Safety Department personnel are granted access to residential facilities for service-related reasons.

Campus Safety Department personnel respond to a variety of alarms to determine the cause of activation, and to take action where appropriate to protect the well-being and safety of The Claremont Colleges community.

8. Safety implementations made in last 18 months

- Developed a multi-hazards annex to our emergency operations plan
- Employed de-escalation strategies as part of ongoing Officer curriculum
- Created a seven-college Emergency Medical Technician position which utilizes highly trained students to respond and provide rapid medical assessment and care for reported injuries and illnesses (on-hold due to COVID-19)
- Officers and Dispatchers transitioned to a 4/10 schedule to provide additional coverage during shifts and more rest during time off
- Officers began wearing body-worn cameras (BWC) an on-the-body audio and video recording system assigned to an officer as an additional means of documenting specific incidents in the field
- Added LiveScan electronic fingerprinting and electronic criminal history search services via fingerprinting as is consistent with contemporary services provided across the state and country
- Additional bike patrols have increased visibility throughout the 7Cs geography
- Each officer has been trained for usage and carries two doses of Narcan/Naloxone spray on their duty belt, with the objective to reduce fatal opioid overdoses
- The Campus Safety 7C Liaison Team has been created to help foster relationship building across 7C shared services
- Incorporated infections disease mitigation protocols

9. Safety implementations expected to be made in next 24 months

- Increase Campus Safety Department's technological capabilities with additional cameras, alarms and/or smartphone resource applications
- Enhance our current capabilities to consistently collect input from students regarding crime/quality of life issues impacting their safety
- Increase dispatch staffing to support additional security camera observations
- Implementation of GPS-location of reported criminal and suspicious activity for incident-mapping and strategic crime prevention programming
- Continually expand multiple-campus participation in future drills and exercises.
- Expand card access systems on campus in other buildings, classrooms, offices, and employ hierarchy and limited access into each system.
- Evaluate requests for new surveillance cameras that meet video policy guidelines.
- Continue to develop new training proficiencies in threat assessment, behavioral intervention, and crisis communications for dispatch personnel.

CA Ed Code 67380 requires certain specified college/university officials to report violent crimes and hate crimes to law enforcement. Victims may choose to remain anonymous and are not required to provide a statement to law enforcement. By law, if a victim chooses to remain anonymous, the identity of the alleged perpetrator (if known) is not provided to law enforcement by the college/university official making the report. The majority of the victims in the reported cases of sexual assault choose to remain anonymous and/or do not want to speak with law enforcement. Further, limited information about the crimes was provided to law enforcement. Without an identified victim and sufficient information upon which to investigate, it is not possible for law enforcement to proceed with an investigation that could result in arrest.

Please note that The Claremont Colleges California Ed Code 67380 report is a separate and distinct report from the Annual Security and Fire Safety Report required under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (The Clery Act). While the 2020 crime statistics include some Clery Act statistics, the overall tables are different from The Clery Act statistics as reflected in the Annual Security and Fire Safety Reports, as Ed Code 67380 requires additional categories that are not reportable under The Clery Act.

For additional information regarding The Claremont Colleges Services Department of Campus Safety's compliance with The Clery Act, and to view your institution's Annual Security and Fire Safety Report, please visit the Campus Safety website at <https://services.claremont.edu/campus-safety/clery-reporting/>
