Pomona College, founded in 1887, is widely regarded as one of the nation’s leading liberal arts colleges. Pomona is a four-year institution, providing students with the tools to pursue academic passions. With a student-faculty ratio of 9:1, students have their faculty member as a mentor and collaborator in small class settings that allow for interaction and engagement. Pomona’s Liberal Arts Core Program is designed to provide students with the knowledge and skills to become leaders within the professions, arts, humanities, and social sciences. Pomona offers students the opportunity to study abroad, participate in research, and gain valuable skills for the workplace. Pomona is ranked in the top 20 liberal arts colleges by US News & World Report and is consistently recognized as a Top 10 Best Value College by The Princeton Review.

Harvey Mudd College is a liberal arts college of engineering, science, and mathematics with approximately 1,000 students. The College was founded in 1955 by J. Robert and Marion Woodruff. In 1996, the college became an independent institution. Harvey Mudd College offers undergraduate degrees in biology, chemistry, computer science, engineering, mathematics, physics, and social sciences. The college also offers interdisciplinary programs that provide a broad education in critical thinking and professional skills. Harvey Mudd College aims to educate students to develop their intellects and abilities through active participation in a community of scholars. The college supports students in their academic pursuits through various resources and services. Harvey Mudd College is committed to fostering an inclusive and diverse community that values the contributions of all students.

Keck Graduate Institute is a graduate-only university offering PhDs, master’s, professional, and certificate programs in four schools: the Schools of Biomedical Engineering, Molecular Science, Biotechnology & Chemistry, and the School of Computing and Mathematical Sciences. The Institute offers graduate coursework in areas such as biomedical engineering, molecular science, biotechnology, chemistry, and computational biology. Since 1999, Keck Graduate Institute has been a leader in the education of scientists, with a focus on personalized, interdisciplinary education. The Institute offers a variety of programs, including biology, chemistry, engineering, mathematics, and physics, plus dual degree programs in engineering and technology management. Keck Graduate Institute aims to educate students to become leaders in their fields by providing them with the knowledge and skills necessary to succeed in the sciences.
